Also proficient: **MUI, Bootstrap, PWAs, Firebase, Websockets, Next.js, Recoil, Git**

Professional Experience

2021-Present **Freelance Web Developer**

Worked freelance with international clients, including the following projects:

SutherKommunikations – **EasyFit-App** (easyfit-app.eu)

- Full-stack PWA using MERN stack & Material UI
- Collaborated with a team of developers who focus on fast turnaround and code reusability
- Created robust and customisable push notification system for user workout reminders
- Designed responsive and intuitive user interfaces from technical requirements
- Developed back-end skills creating secured API routes with authentication and validation

SEOToolbox – **DimmerGuiden** (dimmerguiden.se)

- Full-stack SPA built with Next.js, MongoDB, and Bootstrap
- Worked as sole developer, turning Figma designs into working applications
- Migrated codebase from Javascript to Typescript to improve code reliability
- Optimised code structure for maximum maintainability and future-proofing

2018-2021 **Learning Tech Support Specialist**
USILACS - *a small non-profit online university*
- Engaged directly with customers, requiring good communication skills and a focus on customer satisfaction
- Managed a small team, developing strong organisational ability and management techniques

Education

BSc in Education from USILACS
Graduated 2019 Magna Cum Laude
